CORPORATE GOVERNANCE REPORT

The Corporate Governance Report of your company for Financial Year (FY) 2025-26, which forms part of Boards' Report, is prepared pursuant to Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

1. COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

Our corporate governance framework is anchored in a heritage of ethical operations, with several initiatives introduced voluntarily long before becoming regulatory mandates. Guided by deep-rooted benchmarks of fairness, equity, and moral justice, the Company cultivates a culture of absolute transparency and mutual respect across every stakeholder interaction. This stable foundation is further fortified by a comprehensive internal framework that enables both our workforce and external entities to report concerns without any apprehension of reprisal, consistently reinforcing our institutional focus on accountability.

The Company believes that sound corporate governance is fundamental to achieving its long-term objectives and enhancing sustainable value for all its stakeholders. The Company is committed to conducting its business with the highest standards of integrity, transparency, accountability and ethical conduct.

The Company's philosophy on Corporate Governance is based on the principles of fairness, transparency, responsibility and accountability in all its business activities. The Company endeavours to ensure that its affairs are managed in a manner that is consistent with applicable laws, regulations and established best practices. The Company believes that effective Corporate Governance provides a strong foundation for building trust and confidence among shareholders, investors, employees, customers, business partners and other stakeholders. Accordingly, the Company continuously strives to strengthen its governance framework through an appropriate combination of responsible management, effective internal controls, timely disclosures and transparent decision-making.

The Company is committed to maintaining an effective Board of Directors comprising individuals with appropriate knowledge, experience and expertise, supported by duly constituted Board Committees. The Board and its Committees oversee the Company's affairs and provide strategic guidance while ensuring compliance with statutory and regulatory requirements. The Company shall continue to pursue its business objectives while upholding the highest standards of corporate governance and creating sustainable and long-term value for its stakeholders.

2. BOARD OF DIRECTORS

The composition of the Board is structured to promote independent judgment and to separate the functions of governance and management in a transparent and effective manner. This structure facilitates objective oversight and effective decision-making in the best interests of the Company and its stakeholders.

The Managing Director is entrusted with the responsibility of managing the day-to-day affairs of the Company, subject to the overall supervision, control, and guidance of the Board. The Managing Director regularly apprises the Board at its meetings on the operational and financial performance of the Company, key strategic initiatives, and other significant developments.

In accordance with Regulation 26(1) of the Listing Regulations, none of the Directors on the Board serves as a member in more than ten (10) committees or as Chairperson of more than five (5) committees across all public companies in which they serve as a director. For this purpose, only the Audit Committee and the Stakeholders Relationship Committee are considered.
All Directors have duly made the requisite disclosures regarding their committee memberships and chairpersonships in other public companies, as mandated under the applicable regulatory framework.

(a) Composition and Category of Directors

The Board of Directors of the Company comprises an optimum combination of Executive, Non-Executive, and Independent Directors, ensuring an appropriate balance of skills, experience, expertise, diversity, and independence in accordance with the provisions of the Companies Act, 2013 and Regulation 17 of the SEBI (Listing Obligations and Disclosure

Requirements) Regulations, 2015 ("SEBI LODR Regulations"). The balanced composition of the Board facilitates effective decision-making, strategic guidance, objective oversight, and sound corporate governance.
As on March 31, 2026, the Board comprised Five (5) Directors, consisting of Two (2) Executive Directors, and Three (3) Independent Directors out of which 1 (one) is woman independent director.

The Independent Directors are Non-Executive Directors who satisfy the criteria of independence prescribed under Section 149(6) of the Companies Act, 2013 and Regulation 16(1)(b) of the SEBI LODR Regulations. They have submitted the requisite declarations confirming that they continue to meet the prescribed criteria of independence and are independent of the management. The tenure of the Independent Directors is in compliance with the provisions of the Companies Act, 2013 and the SEBI LODR Regulations.

In accordance with Section 150 of the Act read with Rule 6 of the Companies (Appointment & Qualification of Directors) Rules, 2014, all the Independent Directors have registered themselves with the Independent Directors' data bank maintained by the Indian Institute of Corporate Affairs (IICA).

The present composition of the Board reflects a judicious blend of professional expertise, industry experience, financial acumen, governance knowledge, and independent judgment, enabling the Board to effectively discharge its fiduciary responsibilities and provide strategic direction to the Company.

The composition of the Board is in conformity with the Regulation 17 of the SEBI (LODR) Regulations, 2015. As at March 31, 2026, the Board comprised the following Directors;

MANAGEMENT DISCUSSION AND ANALYSIS

The following discussion provides an overview of the operational and financial performance of the Company during the financial year 2025–26, along with the management's perspective on the future outlook. The analysis is based on current economic and industry conditions and may vary based on future developments, changes in government policies, and market dynamics.

Global Economy

The global economy remained resilient during 2025 despite heightened geopolitical tensions, evolving trade policies and volatility in energy markets. According to the International Monetary Fund (IMF), global GDP growth is projected at 3.0% in 2025 and 3.1% in 2026. Although inflation eased across several advanced economies and financial conditions improved, the IMF continues to highlight trade uncertainty, geopolitical risks and fiscal pressures as key challenges to the global economic outlook.

India registered one of the highest GDP growths in the World in 2025, making the IMF revise the GDP growth projections for the calendar year 2026 in the backdrop of robust private consumption, rapid expansion of high value services, lower US tariffs, and stronger momentum from 2025.

Overview of Indian Economy

The Indian economy continued to demonstrate resilience and sustained growth during FY 2025–26, despite a challenging global environment characterised by geopolitical uncertainties, evolving trade policies, volatile commodity prices and uneven global economic recovery. According to the Government of India's Economic Survey, India's real GDP growth was estimated at 7.4% in FY 2025–26, while the services sector remained a key contributor to economic expansion, registering estimated growth of 9.1%. Domestic consumption and investment continued to provide strong support to economic activity.

Private consumption remained an important driver of growth, with private final consumption expenditure estimated to grow by approximately 7% in FY 2025–26. Gross fixed capital formation also remained robust, growing by approximately 7.8%, reflecting continued investment in infrastructure, manufacturing and productive capacity.

India's financial markets continued to deepen during the year, supported by increasing domestic investor participation, growing institutional investment, improved market infrastructure and regulatory developments. The primary capital market remained particularly strong. During FY 2025–26, total resource mobilisation through equity and debt primary markets stood at approximately ₹ +10.7 lakh crore. IPO volumes were around 20% higher than the corresponding period of FY 2024–25, while the amount mobilised increased by approximately 10%.

The SME capital market also continued to expand, with +217 SME listings during FY 2025–26. This reflects increasing access to organised capital markets for emerging and growth-oriented businesses.

Outlook of Indian Economy

The Indian economy is estimated to have grown at around 7.4-7.6% in FY2026, reaffirming its position as the fastest growing major global economy. Growth was driven by strong domestic demand, sustained government capital expenditure and resilient performance across manufacturing and services sectors, particularly infrastructure, construction, financial services and technology-enabled services.

India's external trade remained resilient in FY2026 despite a challenging global environment characterised by muted goods demand, trade fragmentation and geopolitical disruptions. Total exports (merchandise and services combined) are estimated at approximately USD 840–860 billion, supported primarily by strong growth in services exports, while merchandise exports remained under pressure due to weak global demand.

Government capital expenditure remained a key growth catalyst, with Central Government capex sustained at around 3.1% of GDP, reflecting a continued focus on infrastructure led development. The Union Budget reiterated its long term

commitment through elevated allocations toward transportation, energy transition, manufacturing ecosystems and logistics, alongside continued policy support for chemicals, fertilisers and domestic manufacturing.

Merchant Banking Industry Outlook

The outlook for the Indian merchant banking industry remains positive and growth-oriented, supported by the expanding capital markets, increasing fundraising requirements of corporates, entrepreneurial activity and continued development of India's financial ecosystem.

The sustained growth in IPOs, SME listings, rights issues, preferential issues, qualified institutional placements and other capital-market transactions is expected to create opportunities for merchant bankers. In addition, companies are increasingly seeking professional assistance for capital raising, restructuring, mergers and acquisitions, valuation, due diligence, regulatory compliance and strategic financial advisory. Regulatory reforms are also expected to improve the efficiency of India's primary markets. SEBI has undertaken measures aimed at reducing transaction timelines and improving ease of doing business; for example, the IPO listing timeline has been reduced from T+6 to T+3 working days.

1. BUSINESS STRUCTURE AND DEVELOPMENT

Interactive Financial Services Limited ("IFSL" or "the Company") is a listed public company engaged primarily in Merchant Banking, Investment Banking and Corporate Advisory Services. The Company is registered with the Securities and Exchange Board of India ("SEBI") as a Category-I Merchant Banker under Registration No. INM000012856 and operates with a focus on providing professional and integrated financial and capital-market solutions to its clients.

The Company provides a range of services across the capital markets, with particular emphasis on SME and Main Board IPOs, Further Public Offers (FPOs), valuation services, migration from SME platforms to the Main Board, takeovers, buy-backs, corporate restructuring and business advisory services. The Company also undertakes advisory assignments relating to securities and business valuations, including valuations for corporate transactions, restructuring, financial reporting and other regulatory requirements.
The Company has developed its business around providing end-to-end assistance to enterprises seeking access to the capital markets. Its services encompass transaction planning, regulatory and statutory compliance, due diligence, preparation and coordination of issue-related documentation, liaison with regulatory authorities and other intermediaries, and support throughout the listing and capital-raising process. The Company also provides corporate advisory and business support services covering areas such as securities laws, Companies Act matters, pre-IPO restructuring, mergers and demergers, FEMA-related matters, governance audits and compliance health checks.

The Company has a particular focus on Small and Medium Enterprises (SMEs), which represent an important and growing segment of India's capital markets. Through its merchant banking and advisory capabilities, the Company seeks to assist emerging enterprises in becoming capital-market ready and accessing appropriate avenues for raising capital and achieving their growth objectives. The Company believes that its professional expertise, capital-market experience, regulatory understanding and client-oriented approach provide a strong foundation for sustainable growth. Its team possesses experience across public issues, takeovers, mergers and acquisitions, preferential allotments, rights issues, valuations, migration, buy-backs and other capital-market transactions.

During FY 2025–26, the Company continued to focus on strengthening its merchant banking and advisory operations, enhancing client relationships and developing new business opportunities. Going forward, the Company intends to expand its presence in IPO and SME capital-market transactions, corporate restructuring and strategic business advisory, while maintaining a strong emphasis on regulatory compliance, professional integrity, confidentiality and quality of service.

Company's Position and Outlook
The Company believes that the structural growth of the Indian economy and increasing sophistication of the Indian capital markets provide a favourable environment for the growth of its merchant banking business. The Company intends to leverage its professional capabilities, industry relationships and knowledge of the regulatory framework to participate in emerging opportunities across IPO management, SME issues, preferential issues, rights issues, private placements, mergers and acquisitions, corporate restructuring, valuation and other financial advisory services.

Going forward, the Company will focus on strengthening its client base, expanding its origination capabilities, developing new business opportunities and providing value-added advisory services to corporates and investors. The Company will continue to maintain a strong emphasis on regulatory compliance, corporate governance, investor protection and professional standards.

While the industry outlook remains favourable, the Company remains mindful of risks arising from market volatility, changes in regulatory requirements, geopolitical developments, interest-rate movements, competition among intermediaries and fluctuations in primary-market activity. The Company intends to adopt a prudent and risk-conscious approach while pursuing sustainable growth opportunities.

Overall, the Company views FY 2026–27 as a period of continued opportunity for the merchant banking sector, supported by India's strong economic fundamentals, expanding capital markets and increasing demand for specialised financial and strategic advisory services.

2. OPPORTUNITIES AND THREATS

Opportunities

The Indian capital market continued to provide significant opportunities for merchant banking and investment banking intermediaries during FY 2025–26. The primary market witnessed strong activity, with **366 IPOs raising approximately ₹1.9 lakh crore during FY 2025–26**, including 109 Main Board issues and 257 SME issues. This continued expansion of the primary market presents meaningful opportunities for merchant bankers providing issue management and related advisory services.

The Company believes that the increasing number of enterprises seeking access to the capital markets for funding their expansion, working capital requirements, acquisitions and other strategic objectives will support demand for merchant banking services. In particular, the continued development of the **SME capital market** provides opportunities for the Company to assist emerging businesses in accessing institutional and public capital.

The Company also sees opportunities in **Main Board IPOs, SME IPOs, preferential issues, rights issues, qualified institutional placements, takeovers, buy-backs, corporate restructuring, valuation assignments and other capital-market related advisory services**. Increasing corporate activity, promoter funding, foreign investment and various strategic transactions are expected to support demand for independent valuation and transaction advisory services.

Further, the increasing participation of retail and institutional investors, improving financial awareness and continued development of India's capital-market ecosystem are expected to contribute to sustained demand for professional financial and regulatory advisory services. The Company intends to leverage its experience and relationships to expand its client base and identify new business opportunities.

The Company will continue to focus on **business development, strengthening client relationships, expanding its Main Board and SME transaction pipeline, and providing comprehensive advisory solutions** while maintaining high standards of professional and regulatory compliance.

Threats

Despite the favourable long-term outlook, the Company's business remains closely linked to the performance and sentiment of the capital markets. **Volatility in equity markets, changes in interest rates, inflationary pressures, geopolitical developments, global economic conditions, taxation policies and domestic economic or political developments** may adversely affect the timing and volume of capital-market transactions.

The merchant banking industry is also characterised by **intense competition**, including competition from established financial institutions, investment banks, boutique advisory firms and other intermediaries. Increasing competition may exert

pressure on professional fees and margins and may require the Company to continuously enhance the quality, efficiency and value proposition of its services.

Changes in **SEBI regulations, listing requirements, disclosure standards and other applicable laws** may increase compliance and execution requirements for merchant bankers. SEBI continues to update the regulatory framework applicable to merchant bankers and capital-market intermediaries, including through its Master Circular for Merchant Bankers.

The Company is also exposed to the risk that adverse market conditions may result in **postponement, downsizing or cancellation of proposed IPOs and other capital-market transactions**, thereby affecting the Company's transaction-based revenues. In addition, increased scrutiny relating to investor protection, corporate disclosures and issue processes requires merchant bankers to maintain robust due-diligence and compliance systems.

The Company seeks to mitigate these risks through **diversification of its service offerings, prudent acceptance of assignments, strong regulatory and compliance processes, continuous monitoring of market developments and maintenance of professional standards**.

Overall, the Company remains cautiously optimistic about the opportunities available in the Indian merchant banking industry and intends to pursue sustainable growth while maintaining a disciplined approach towards risk management and regulatory compliance.

3. SEGMENT-WISE / PRODUCT-WISE PERFORMANCE

The Company is primarily engaged in the Merchant Banking and financial advisory business. The Company operates predominantly as a single business segment and, accordingly, the segment-wise performance is not materially distinguishable into separate reportable segments.

During FY 2025–26, the Company continued to focus on strengthening its merchant banking and advisory operations and generating business through capital-market and corporate advisory assignments. The Company's operating revenue for FY 2025–26 stood at approximately ₹ 7.37 crore, as compared to ₹ 7.41 crore in FY 2024–25. Despite broadly stable operating revenue, profitability improved, with profit after tax increasing to approximately ₹ 3.49 crore from ₹ 2.85 crore, representing a growth of around 22.46%.

Going forward, the Company intends to strengthen its business development and client acquisition capabilities, expand its transaction pipeline and increase its presence across SME and Main Board capital-market transactions while continuing to maintain high standards of professional conduct, regulatory compliance and execution quality.

Since the Company operates predominantly in a single business segment, the segment-wise/product-wise performance should be read in conjunction with the Company's overall financial performance for the year.

4. RISK AND CONCERN

The Company's business is subject to various risks and uncertainties inherent in the merchant banking and financial advisory industry. The Company continuously monitors such risks and takes appropriate measures to minimise their potential impact on its operations and financial performance.

The Company's business is substantially dependent upon the level of activity in the Indian capital markets. Any Decline in market sentiment, volatility in equity markets, changes in interest rates, economic uncertainties or adverse domestic and global developments may affect the number and size of public issues, SME issues, takeovers, buy-backs and other corporate transactions, thereby impacting the Company's business opportunities and revenues.

Merchant banking is a highly regulated business and is subject to extensive supervision by SEBI and other regulatory and statutory authorities. Changes in applicable laws, regulations, disclosure requirements, listing norms, capital adequacy requirements or compliance procedures may increase the Company's regulatory and operational responsibilities and associated costs. SEBI has introduced revised requirements relating to merchant bankers, including capital adequacy and

liquid net-worth requirements, which further emphasise the importance of maintaining adequate financial and compliance standards.

The merchant banking industry is competitive, with participation from established investment banks, financial institutions, boutique advisory firms and other SEBI-registered intermediaries. Increased competition may result in pressure on professional fees, margins and client acquisition. The Company seeks to address this risk through quality service, professional expertise, client relationships and timely execution of assignments.

Merchant banking requires professionals possessing specialised knowledge of capital markets, financial analysis, valuation, securities laws, regulatory requirements and transaction execution. The inability to attract, retain and develop qualified professionals could adversely affect the Company's ability to execute assignments and expand its business.

Increasing reliance on digital systems, electronic communication and technology-enabled processes exposes the Company to operational and cybersecurity risks, including data breaches, system failures, cyberattacks and loss of confidential information. The Company seeks to mitigate such risks through appropriate internal controls, information-security measures and restricted access to confidential data.

Risk Mitigation

The Company follows a prudent and risk-conscious approach towards accepting and executing assignments. It continuously monitors regulatory developments, maintains appropriate internal controls, undertakes due diligence, ensures compliance with applicable laws and regulations, and regularly reviews its operational and business processes.
The Company believes that strong regulatory compliance, professional expertise, effective internal controls, diversification of services and close monitoring of market developments will enable it to manage the risks associated with its business effectively.

Overall, while the merchant banking business remains exposed to market, regulatory, operational and transaction-related risks, the Company remains committed to managing these risks prudently and pursuing sustainable growth opportunities while maintaining the highest standards of professional integrity and investor protection.

5. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUECY

The Company has established and maintained an adequate system of internal controls commensurate with the size, nature and complexity of its operations. The internal control framework is designed to ensure the orderly and efficient conduct of business, safeguarding of assets, prevention and detection of frauds and errors, accuracy and completeness of accounting records, reliability of financial information and compliance with applicable statutory and regulatory requirements.

Being engaged in the Merchant Banking and financial advisory business, the Company places significant emphasis on regulatory compliance, transaction-level controls, due diligence, confidentiality of information and proper documentation. The internal control framework covers financial reporting, operational activities, client assignments, regulatory compliances and other business processes.
The Company's internal control systems broadly include the following:

- Proper segregation of duties and defined authority and responsibility levels;
- Review and approval mechanisms for business and financial transactions;
- Controls over accounting and financial reporting;
- Periodic reconciliation and review of financial and operational information;
- Compliance with applicable provisions of the Companies Act, SEBI regulations, stock exchange requirements and other applicable laws;
- Monitoring of merchant banking assignments and transaction-related documentation;
- Appropriate due diligence and review procedures in relation to capital-market and advisory assignments;
- Controls for protection and confidentiality of client and transaction-related information;
- Periodic review of statutory and regulatory compliances; and
- Regular monitoring of identified operational and financial risks.

The Company's management periodically reviews the effectiveness of the internal control framework. The company has appointed independent qualified internal auditor for audit and compliance mechanisms, provide an independent review of the adequacy and effectiveness of internal controls and assist in identifying areas requiring improvement. Any observations arising from such reviews are appropriately considered and corrective measures are taken wherever necessary.

The Audit Committee of the Board plays an important role in overseeing the Company's financial reporting process, internal controls and audit-related matters. The Committee periodically reviews significant financial and operational matters and evaluates the adequacy of the Company's internal control environment.

The Company also continuously monitors developments in the regulatory framework applicable to merchant bankers and capital-market intermediaries and takes necessary steps to align its policies and procedures with applicable requirements. SEBI's regulatory framework for merchant bankers emphasises the need for appropriate systems, controls and compliance mechanisms commensurate with the nature and scale of operations. Based on the assessment undertaken by the management and the review carried out during the year, the Company believes that its internal control systems are adequate and operating effectively in relation to the size and nature of its business. The Company remains committed to continuously strengthening its internal control and compliance framework to support sustainable growth, protect stakeholder interests and maintain high standards of corporate governance.

INDEPENDENT AUDITORS' REPORT

To The Members of,

Interactive Financial Services Limited

Report on the Audited Financial Statements

Opinion

We have audited the accompanying financial statements of **Interactive Financial Services Limited** ("the Company"), which comprises the Balance sheet as at March 31, 2026, the Statement of Profit and Loss (including other comprehensive income), the Statement of changes in equity, the Cashflow Statement for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the financial statements).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act 2013 ("Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026 and its profit, total comprehensive income, the changes in equity and cash flows for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Emphasis on Matter

Building & Furniture located at 603, Harshrishte Complex, Paldi, Ahmedabad, Gujarat having carrying amount of ₹ 1.58 lakhs earlier upto F.Y. 2021-22 were included in Property, Plant & Equipment which were classified as Non current Asset Held for Sale as per Note No. 9 of financial statements during F.Y. 2022-23. As per Indian Accounting Standard - 105, one of condition to classify the asset held for sale is that sale should be completed with in 12 months of classification but there are exceptions to that condition and extension of period for more than 12 months is allowed. As per written representation received from the management, there is no change in plan to sell the asset in current condition, but due to certain local regulatory constraints, they are not able to execute the sale in given period of time. Also, as there is change in management during F.Y. 2022-23, the documents necessary to execute the sale are still under process. We have received no documentary evidences regarding condition that fulfill for extension of time beyond 12 months, but given the nature of property being immovable nature, such scenarios are common.

Except to above observation, we do not find classification of such asset held for sale to be inappropriate or inaccurate. Our conclusion is not modified in respect of the above matter.

Information other than the financial statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance report and shareholder's information but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's board of directors is responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time, and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1 As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2 As required by section 143(3) of the Act, we report that:

(a) we have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit;

(b) in our opinion, the Company has kept proper books of account as required by law, so far as appears from our examination of the books;

(c) the balance sheet, the statement of profit and loss including other comprehensive income, the statement of changes in equity and the cash flow statement dealt with by this report are in agreement with the books of account;

(d) in our opinion, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014;

(e) on the basis of written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of section 164 (2) of the Companies Act, 2013;

(f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting;

(g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197 (16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 in our opinion and to the best of our information and according to the explanations given to us :-

i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements. (Refer note 26 of the standalone financial statements)

ii) The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.

iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv) (a) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

(v) The company has not declared or paid any dividend during the year in contravention of the provisions of section 123 of the Companies Act, 2013.

(vi) Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended 31 March 2026 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software's. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE - B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF INTERACTIVE FINANCIAL SERVICES LIMITED.

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

We have audited the internal financial controls over financial reporting of Interactive Financial Services Limited ("the Company") as of 31st March, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on, the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

BACKGROUND

Interactive Financial Services Limited ('the Company') is a Listed Public Limited Company engaged primarily in providing Merchant Banking and allied services. The Company is a SEBI Registered Category I Merchant Banker. The Company's registered office is at 308, 5th Floor, Priviera, Nehrunagar, Ahmedabad - 380015, Gujarat, India.

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

1.1 BASIS OF PREPARATION OF ACCOUNTS

a) Statement of compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act and the guidelines issued by Securities Exchange of India (SEBI) to the extent applicable. The accounting policies are applied consistently to all the periods presented in the financials.

b) Functional and presentation currency

These financial statements are presented in Indian rupees which is the Company's functional currency, in lakhs rounded off to two decimals except as otherwise stated as permitted by Schedule III of the Companies Act.

c) Basis of Measurement

These financial statements have been prepared on a historical cost convention basis, except for the following:

(i) Certain financial assets and liabilities that are measured at fair value.

(ii) Assets held for sale: Measured at the lower of (a) carrying amount and (b) Fair Value less cost to sell. In absence of Certain amount of Fair Value of Office Building & Furniture held for sale, the same is measured at carrying amount with an assumption that fair value of the assets is much higher than carrying value considering the increase in real estate prices in the Ahmedabad.

(iii) Net defined benefit plans: Plan assets measured at Fair Value less present value of defined benefit obligation.

(iv) Determining the Fair Value:

While measuring the Fair Value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a Fair Value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the Fair Value of an asset or a liability fall into different levels of the Fair Value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the Fair Value hierarchy as the lowest level input that is significant to the entire measurement.

d) Use of Estimates and Judgement

The preparation of financial statements in accordance with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimates are known or materialised. The most significant estimates and assumptions are described below:

Assumptions and Estimations

Information about assumption and estimation uncertainties that have significant risk of resulting in a material adjustment are as below:

1. **Impairment test of financial & non-financial assets**

   a) For the purpose of assessing recoverability of non-financial assets, assets are grouped at the lower levels for which there are individually identifiable cash flows (Cash Generating Units).

   b) The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

   Elements of the ECL models that are considered accounting judgements and estimates include:

   - The Company's internal credit grading model, which assigns PDs to the individual grades.

   - The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LTECL basis and the qualitative assessment.

   - The segmentation of financial assets when their ECL is assessed on a collective basis.

   - Development of ECL models, including the various formulas and the choice of inputs.

   - It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

2. **Allowance for bad debts**

   The Management makes estimates related to the recoverability of receivables, whose book values are adjusted through an allowance for Expected losses. Management specifically analyses accounts receivable, customers' creditworthiness, current economic trends and changes in customer's collection terms when assessing the adequate allowance for expected losses, which are estimated over the lifetime of the debts.

3. **Recognition and measurement of Provisions and Contingencies**

   The Company's Management estimates key assumptions about the likelihood and magnitude of an outflow of resources based on available information and the assumptions and methods deemed appropriate. Wherever required, these estimates are prepared with the assistance of legal counsel. As and when additional information becomes available to the Company, estimates are revised and adjusted periodically.

4. **Recognition of Deferred Tax Assets/Liabilities**

   The Management makes estimates as regards to availability of future taxable profits against which unabsorbed depreciation/ tax losses carried forward can be used.

5. **Measurements of Defined benefit obligations**

   The measurements are based on key actuarial assumptions, if applicable.

e) **Current and non-current classification**

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (not exceeding twelve months) and other criteria set out in the Schedule III to the Companies Act.

f) **Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest rupee as per the requirement of Schedule III, unless otherwise stated.

1.2 MATERIAL ACCOUNTING POLICIES

a) Property, Plant and Equipment

(i) Recognition and measurement

The Company had applied for the one time transition exemption of considering the carrying cost on the transition date i.e. 1st April, 2016 as the deemed cost under Ind AS. Hence regarded thereafter as historical cost.

Property, Plant and Equipment are measured at cost (which includes capitalised borrowing costs) less accumulated depreciation and accumulated impairment losses, if any. The cost of an item of Property, Plant and Equipment comprises:

a) its purchase price, including import duties and nonrefundable purchase taxes, after deducting trade discounts and rebates.

b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

c) the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of Property, Plant and Equipment have different useful lives, then they are accounted for as separate items (major components) of Property, Plant and Equipment and depreciated accordingly. Any gain or loss on disposal of an item of Property, Plant and Equipment is recognised in Statement of profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iii) Depreciation, Estimated useful life and estimated residual value

Depreciation is calculated using the Straight Line Method, pro rata to the period of use, taking into account useful lives and residual value of the assets. The Company depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II to the Act and management believe that useful life of assets are same as those prescribed in Schedule II to the Act. Depreciation is computed with reference to cost or revalued value as per previous GAPP as the case may be. The assets residual value and useful life are reviewed and adjusted, if appropriate, at the end of each reporting period. Gains and losses on disposal are determined by comparing proceeds with carrying amounts. These are included in the statement of Profit and Loss.

b) Intangible Assets

(i) Recognition and measurement

Computer softwares have finite useful lives and are measured at cost less accumulated amortisation and any accumulated impairment losses. The same are tested for impairment, if any, at the end of each accounting period.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, when incurred is recognised in statement of profit or loss.

(iii) Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives and is generally recognised in statement of profit or loss. Computer software are amortised over their estimated useful life or 3 years, whichever is lower. Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted, if required.

c) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts, interest rate swaps and currency options.

(i) Financial Assets

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts, interest rate swaps and currency options.

a) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at Fair Value Through Other Comprehensive Income-[FVTOCI], or Fair Value Through Profit and Loss-[FVTPL] and - those measured at Amortised Cost.[AC]. The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

b) Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

In case of investments

i) In Equity instruments

- For subsidiaries, associates and Joint ventures – Investments are measured at cost and tested for impairment periodically. Impairment (if any) is charged to the Statement of Profit and Loss.

- For Other than subsidiaries, associates and Joint venture - Investments are measured at FVTOCI.

ii) In Mutual fund

Investment is measured at FVTPL.

iii) In Debt instruments

The Company measures the debts instruments at Amortised Cost. Assets that are held for collection of contractual cash flows where those cash flows represent solely payment of principal and interest (SPPI) are measured at amortised cost. Gain or loss on a debt instrument that is subsequently measured at amortised cost and is not part of the hedging relationship, is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the Effective interest rate method.

c) Derecognition of financial assets

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from financial asset, or

- Retains the contractual rights to receive the cash flows of the financial assets, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset and has transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised.

Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained the control of the financial asset. Where the Company retains the control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

d) **Impairment of financial assets**

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) Model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

a) Financial assets that are debt instruments and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance, except where asset is not recoverable it will be written in same year

b) Trade receivables.

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

- For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. ECL is used to provide for impairment loss.

(ii) **Financial Liabilities**

a) **Classification**

The Company classifies its financial liabilities in the following measurement categories:

- those to be measured subsequently at FVTPL and
- those measured at Amortised Cost (AC)

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

b) **Initial recognition and measurement**

- Financial liabilities are classified, at initial recognition, as Financial liabilities at FVTPL or AC.

- All Financial liabilities are recognised initially at Fair Value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

- the Company's Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, Financial guarantee contracts and derivative Financial instruments.

c) **Financial liabilities at FVTPL**

Financial liabilities at FVTPL include financial liabilities designated upon initial recognition as at Fair Value Through Profit or Loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at FVTPL are designated at the initial date of recognition, only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, Fair Value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/loss are not subsequently transferred to statement of profit or loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

d) **Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. AC is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to interest-bearing loans and borrowings.

e) **Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

f) **Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

g) **Derivative financial instruments**

The Company uses derivative financial instruments, such as forward currency contracts, interest rate swaps and forward commodity contracts to hedge its foreign currency risks, interest rate risks and commodity price risks respectively. Such derivative financial instruments are initially recognised at Fair Value on the date on which a derivative contract is entered into and are subsequently re-measured at Fair Value. Derivatives are carried as financial assets when the Fair Value is positive and as financial liabilities when the Fair Value

d) **Trade Receivables**

Trade receivable are recognised initially at Fair Value and subsequently measured at AC using the effective interest method less provision for impairment. As per Ind AS 109 the Company has applied ECL for recognising the allowance for doubtful debts. Where Company has offered extended credit period [ECP] to the debtors, the said amount is recorded at present value, with corresponding credit to the statement of profit and loss over the tenure of the extended credit period.

e) **Cash and Cash Equivalent**

For the purpose of presentation in the statement of the cash flows, cash and cash equivalent includes the cash on hand, deposits held at call with financial institutions other short term, highly liquid investments with original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

f) **Contributed Equity**

Equity shares are classified as equity. Incidental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

I) **Dividends**

Provision is made for the amount of any dividend declared, in the year in which it is to be approved by shareholders.

II) **Earnings per share**

(i) **Basic earnings per share**

Basic earnings per shares is calculated by dividing Profit/(Loss) attributable to equity holders (adjusted for amounts directly charged to Reserves) before/after Exceptional Items (net of tax) by Weighted average number of Equity shares (excluding treasury shares).

(ii) **Diluted earnings per share**

Diluted earnings per shares is calculated by dividing Profit/(Loss) attributable to equity holders (adjusted for amounts directly charged to Reserves) before/after Exceptional Items (net of tax) by Weighted average number of Equity shares (excluding treasury shares) considered for basic earning per shares including dilutive potential Equity shares.

e) **Borrowings**

Borrowings are initially recognised at Fair Value, net of transaction costs incurred. Borrowings are subsequently measured at AC. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of borrowings using the effective interest method. Processing/Upfront fee are treated as prepaid asset and netted off from borrowings. The same is amortised over the period of the facility to which it relates. Preference shares are classified as liabilities. The dividends on these preference shares, if approved, by shareholders in the forthcoming Annual General Meeting, are recognised in profit or loss as finance costs, in the year when approved. Borrowings are derecognised from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of the financial liability that has been extinguished or transferred to another party and the consideration paid including any non-cash assets transferred or liability assumed, is recognised in Statement of profit or loss as other gains or (losses). Borrowings are classified as current liabilities unless the Company has an unconditional right to defer the settlement of liabilities for at least twelve months after the reporting period. Where there is a breach of a material provision of a long term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the same is classified as current unless the lender agreed, after the reporting period and before the approval of financial statements for issue, not to demand payment as a consequence of the breach.

f) **Trade and Other payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid at the period end. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their Fair Value and subsequently measured at amortised cost using the effective interest method.

g) **Foreign Currency Transactions**

Transactions in foreign currencies are translated into the functional currencies of the Company at the exchange rate prevailing at the date of the transactions. Monetary assets (other than investments in companies registered outside India) and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Investments in companies registered outside India are converted at rate prevailing at the date of acquisition. Non-monetary assets and liabilities that are measured at Fair Value in a foreign currency are translated into the functional currency at the exchange rate when the Fair Value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are not translated. Difference on account of changes in foreign currency are generally charged to the statement of profit & loss.

h) **Revenue Recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The Company derives revenues primarily from Merchant Banking Consultancy service fees which includes arranger fees, advisory fees, lead manager fees and are recognised when the Company satisfies performance obligation.

"Unbilled revenues" (contract asset) represent revenue earned in excess of billings as at the end of the reporting period. Where right to consideration is unconditional upon passage of time is classified as a financial asset however, for fixed price development contracts, where milestone is not due as per contract terms as on date of reporting, the same is classified as non-financial asset.

Other Income

a) Dividend income is recognised when right to receive dividend is established.

b) Interest and other income are recognised on accrual basis on time proportion basis and measured at effective interest rate and considered as business income.

c) Income from Sale of Shares and Securities are recognised on the date of the relevant transactions.

i) Government Grants

(i) Grants from the Government are recognised at their Fair Value where there is a reasonable assurance that the grant will be received and the Company will comply with all the attached conditions.

(ii) Government grant relating to purchase of Property, Plant and Equipment are included in "Other current/ non-current liabilities" as Government Grant - Deferred Income and are credited to Profit or loss on a straight line basis over the expected life of the related asset and presented within "Other Operating revenue".

j) Employee Benefits

(i) During Employment benefits

(a) Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) Post-Employment benefits

(a) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which Company pays fixed contribution into a separate entity and will have no legal or constructive obligation to pay future amounts. The Company has no obligation for payment to any contributions as per the relevant Act.

(b) Defined benefit plans

The Company pays gratuity to the employees who have has completed five years of service with the company at the time when employee leaves the Company. The gratuity is payable as per the provisions of Payment of Gratuity Act, 1972. During the current financial year, the Company's headcount exceeded the statutory threshold under the Payment of Gratuity Act, 1972 for the first time. Consequently, the provisions of Indian Accounting Standard (Ind AS) 19 'Employee Benefits' became applicable to the Company. The management has assessed the accrued gratuity liability for the eligible employees as of March 31, 2026, on an internal estimate basis. Since the eligible headcount is low and the total accrued liability is considered immaterial to the financial statements taken as a whole. Accordingly, no provision has been recognized in the financial statements for the current year. The same will be evaluated and provided for based on an independent actuarial valuation in the subsequent financial year.

(c) Termination Benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date or when an employee accepts voluntary redundancy in exchange for these benefits. In case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than twelve months after the end of reporting period are discounted to the present value.

k) Income Tax

Income tax expense comprises current and deferred tax. Tax is recognised in statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or in equity. In such cases, the tax is also recognised in the other comprehensive income or in equity.

(a) Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or subsequently enacted at the Balance sheet date.

Current tax assets and liabilities are offset only if, the Company:
a) has a legally enforceable right to set off the recognised amounts; and
b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(b) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have enacted or subsequently enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period. Deferred tax is recognised to the extent that it is probable that future taxable profit will be available against which they can be used.

The reassessment of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:
a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable Company.

l) Borrowing Costs

General and specific Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale. Other borrowing costs are recognised as an expense in the period in which they are incurred. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalisation. All other borrowing costs are charged to the statement of profit and loss for the period for which they are incurred.

m) Leases

Effective 1st April, 2019, the company adopted IND AS 116 - Leases. IFSL applied IND AS 116 using modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at 1st April 2019.

Accounting policy applicable from 1st April 2019

At the inception it is assessed, whether a contract is a lease or contains a lease. A contract is a lease or contains a lease if it conveys the right to control the use of an identified asset, for a period of time, in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, company assesses whether the contract involves the use of an identified asset. Use may be specified explicitly or implicitly.

Use should be physically distinct or represent substantially all of the capacity of a physically distinct asset.

If the supplier has a substantive substitution right, then the asset is not identified.

Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use.

Company has the right to direct the use of the asset.

In cases where the usage of the asset is predetermined the right to direct the use of the asset is determined when the company has the right to use the asset or the company designed the asset in a way that predetermines how and for what purpose it will be used.

Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use.

1. Company has the right to direct the use of the asset.
2. In cases where the usage of the asset is predetermined the right to direct the use of the asset is determined when the company has the right to use the asset or the company designed the asset in a way that predetermines how and for what purpose it will be used.

At the commencement or modification of a contract, that contains a lease component, company allocates the consideration in the contract, to each lease component, on the basis of its relative standalone prices. For leases of property, it is elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

As a Lessee:

Company recognizes a right-of-use asset and a lease liability at the lease commencement date.

Right-of-use asset (ROU):

The right-of-use asset is initially measured at cost. Cost comprises of the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, any initial direct costs incurred by the lessee, an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives received.

After the commencement date, a lessee shall measure the right-of-use asset applying cost model, which is Cost less any accumulated depreciation and any accumulated impairment losses and also adjusted for certain re-measurements of the lease liability.

Right-of-use asset is depreciated using straight-line method from the commencement date to the end of the lease term. If the lease transfers the ownership of the underlying asset to the company at the end of the lease term or the cost of the right-of-use asset reflects company will exercise the purchase option, ROU will be depreciated over the useful life of the underlying asset, which is determined based on the same basis as property, plant and equipment.

Lease liability:

Lease liability is initially measured at the present value of lease payments that are not paid at the commencement date. Discounting is done using the implicit interest rate in the lease, if that rate cannot be readily determined, then using company's incremental borrowing rate. Incremental borrowing rate is determined based on entity's borrowing rate adjusted for terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprises of fixed payments (including in substance fixed payments), variable lease payments that depends on an index or a rate, initially measured using the index or rate at the commencement date, amount expected to be payable under a residual value guarantee, the exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

Lease liability is measured at amortised cost using the effective interest method. Lease liability is re-measured when there is a change in the lease term, a change in its assessment of whether it will exercise a purchase, extension or termination option or a revised in-substance fixed lease payment, a change in the amounts expected to be payable under a residual value guarantee and a change in future lease payments arising from change in an index or rate.

When the lease liability is re-measured corresponding adjustment is made to the carrying amount of the right-of-use asset. If the carrying amount of the right-of-use asset has been reduced to zero it will be recorded in statement of profit and loss.

Right-of-use asset is presented as a separate category under "Non-current assets" and lease liabilities are presented under "Financial liabilities" in the balance sheet.

Company has elected not to recognise right-of-use assets and lease liabilities for short term leases. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

Lessor

At the commencement or modification of a contract, that contains a lease component, company allocates the consideration in the contract, to each lease component, on the basis of its relative standalone prices.

At the inception of the lease, it is determined whether it is a finance lease or an operating lease. If the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset, then it is a financial lease, otherwise it is an operating lease.

If the lease arrangement contains lease and non-lease components, then the consideration in the contract is allocated using the principles of IND AS 115. The company tests for the impairment losses at the year end. Payment received under operating lease is recognised as income on straight line basis, over the lease term.

The accounting policies applicable to the company as a lessor, in the comparative period, were not different from IND AS 116.

n) Non- Current assets held for sale

Non-Current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and sale is considered highly probable. They are measured at lower of their (a.) carrying amount and (b.) Fair Value less cost to sell. Non-current assets are not depreciated or amortised when they are classified as held for sale.

o) Provisions and contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pretax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expenses. Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

27 Disclosures pursuant to Indian Accounting Standard -19 " Employee Benefits")

A **Defined Contribution Plan:**

i) The company has recognised as an expense in the profit and loss account in respect of defined contribution plan – Provident Fund of ₹ 1.39/- lakhs (Previous year ₹ Nil /-) administered by the Government.

ii) The expense recognised during the year towards defined contribution plan of Employee State Insurance Corporation is ₹ 0.18/- lakhs (March 31, 2025 - ₹ Nil/-).

B **Defined benefit plan and long term employment benefit**

General Description:

- **Gratuity (Defined Benefit Plan):**

During the current financial year, the Company's headcount exceeded the statutory threshold under the Payment of Gratuity Act, 1972 for the first time. Consequently, the provisions of Indian Accounting Standard (Ind AS) 19 'Employee Benefits' became applicable to the Company. The management has assessed the accrued gratuity liability for the eligible employees as of March 31, 2026, on an internal estimate basis. Since the eligible headcount is low and the total accrued liability is considered immaterial to the financial statements taken as a whole. Accordingly, no provision has been recognised in the financial statements for the current year. The same will be evaluated and provided for based on an independent actuarial valuation in the subsequent financial year."

- **Leave Wages:**

The leave wages are payable to all eligible employees at the rate of daily salary/wages for each day of accumulated leave and are paid during the financial year itself. Therefore no liability is accrued at the end of the financial year for leave benefits as per practice followed by the company year to year.

The Government of India has notified and brought into force substantial provisions of the four Labour Codes on November 21, 2025, consolidating and rationalising various existing labour laws. There is no effect on the financial statement due to this. The Company will complete the impact of these Labour Codes upon notification of the rules, corresponding State level regulations and further clarifications/guidance in the matter and impact whereof, if any, will be recognised thereafter.

29 Segment Reporting:

Disclosures as required by Indian Accounting Standard 108 "Operating Segments" are given below.

As per the Management Chief Operating Decision Maker (CODM) for purpose of resource allocation and assessment and the segment performance focus on only one major operating division - 'Merchant Banking Division' during the current year. Since the company has only one segment, there is no separate reportable segment as required under Ind AS 108.

30 Particulars of Earnings Per Share:

The basic and diluted earnings per share have been computed in accordance with Indian Accounting Standard (Ind AS) 33 - Earnings Per Share. The details are as follows:

Particulars	2025-26	2024-25
Net Profit attributable to Share Holders (Amount in ₹ Lakhs)	249.43	285.33
Number of Weighted Equity Shares *	69,70,130	42,13,681
Nominal value of share	10	10
Original Earnings per share	3.582	6.772
Restated Earnings per share	3.582	6.772

During the F.Y. 2024-25, the Company made a rights issue of 30,17,010 equity shares at ₹50 per share. The market price immediately prior to the issue was ₹94.27. The issue consists a bonus element as the issue price was lower than the market price.

Accordingly, in compliance with Ind AS 33 – Earnings Per Share, the earnings per share for all prior periods presented have been adjusted retrospectively using an adjustment factor of 1.22 which is calculated as Market Price before Rights Issue/Theoretical Ex Rights Price because Market Price before Ex-Date is more than FERP. This adjustment ensures comparability across all periods.

"(1) Fair Value of Financial Assets and Liabilities are measured at Amortised cost is not materially different from the Amortised cost. Further impact of time value of money is not significant for the financial instrument classified as current. Accordingly fair value has not been disclosed separately."

The management assessed that the fair value of cash and cash equivalent, and other current financial assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

Types of inputs are as under:

Input Level I : (Directly Observable) which includes quoted prices in active markets for identical assets such as quoted price for an Equity Security on Security Exchanges.

Input Level II : (Indirectly Observable) which includes prices in active markets for similar assets such as quoted price for similar assets in active markets, valuation multiple derived from prices in observed transactions involving similar businesses etc.

Input Level III : (Unobservable) which includes management's own assumptions for arriving at a fair value such as projected cash flows used to value a business etc.

Financial instruments measured at fair value

Type Valuation technique

Listed Equity Valuation Based on exchange rates listed on NSE/BSE stock exchange

Listed Mutual Fund Valuation on NAV rates listed on NSE/BSE exchange.

Unquoted equity instruments have been measured on the basis of their net worth and valuation of their shares.

6. Financial Risk Management:-

The Company has exposure to the following risks arising from financial instruments

- Credit Risk ;
- Liquidity Risk ; and
- Market Risk
  - Interest Rate Risk
  - Equity Risk

Risk Management Framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company manages market risk through a treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommends risk management objectives and policies, which are approved by Board of Directors. The activities of this department include management of cash resources, borrowing strategies, and ensuring compliance with market risk limits and policies.

The Company's Risk Management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk Management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Company's Risk Management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

i Credit Risk

Credit Risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, investments in debt securities and loans.

Credit Risk also arises from cash held with banks, credit exposure to clients, loans and advances given. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The company assesses the credit quality of counter parties taking into account their financial position, past experiences and other factors.

Other Financial Assets

The Company measures its Cash and Cash equivalents and Bank deposits with banks having good reputation, good past track record and high quality credit rating and also reviews their credit-worthiness on an ongoing basis.

All loans in the opinion of management which are not recoverable are written off. The Company may write off financial assets that are still subject to enforcement activity. The Company still seeks to recover amounts it is legally owed in full, but which have been written off due to no reasonable expectation of full recovery. The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date.

Further, the movement on credit loss allowance on current loans and advances is as follow:

Net carrying	**943.02**	-	-	**963.02**

Trade Receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

The maximum exposure to Credit Risk for Trade Receivables by geographic region was as follows: (Amount in ₹ lakhs)

Particulars	As at 31st March, 2026	As at 31st March, 2025

The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date. The allowances for expected credit loss for year ended March 31, 2026 is ₹ 1.08/- lakhs and for year ended March 31, 2025 is of ₹ 0.64/- lakhs as any impairment or credit loss was directly written off.

ii **Liquidity Risk** is the risk that the Company will encounter difficulty in meeting the obligations associated with its Financial Liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Exposure to Liquidity Risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

Non Derivative Financial Liabilities	Contractual Cash Flows	
	Carrying Amount 31st March, 2026	Carrying Amount 31st March, 2025
Unsecured Loans	100.11	55.83
Trade and Other Payables	39.48	69.13

iii **Market Risk**

Market Risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables, investments and short term debt. We are exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the value of our investments. Thus, our exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs.

a) **Interest Rate Risk**

Interest Rate Risk is the risk that the fair value or future Cash Flows of a financial instrument will fluctuate because of changes in market interest rates.

Exposure to Interest Rate Risk

The Company has taken unsecured loan having fixed interest rates, therefore company does not have any risk in case of change in market risk of interest rates. Therefore, sensitivity to Interest Rate is not calculated. The loans granted by the bank or company is with fixed interest rate. The interest rate risk can also impact the provision for defined benefits. The Company generally utilizes fixed rate borrowings and therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of change in the market interest rates.

The Company is not exposed to significant interest rate risk as at the respective reporting dates.

b) **Equity Risk**

Equity Price Risk is related to the change in market reference price of the investments in equity securities. The fair value of some of the Company's investments in Fair value through Other Comprehensive Income & FVTPL securities expose the Company to equity price risks. In general, these securities are not held for trading purposes. These investments are subject to changes in the market price of securities. The fair value of equity securities as of March 31, 2026 was ₹ 913.17 lakhs [March 31, 2025 - ₹ 398.86 lakhs]. A 5percent standard deviation of 5% [FY 2025-26 – 5%] would result in change in equity prices of securities held as of March 31, 2026 by ₹ 45.660 lakhs [FY 2024-25 by ₹ 19.943 lakhs].

c) **Mutual Fund Risk**

Mutual Fund NAV Risk is related to the change in market reference NAV of the investments in mutual funds. The fair value of some of the Company's investments in Fair value through Other Comprehensive Income & FVTPL funds expose the Company to NAV price risks. In general, these funds are not held for trading purposes. These investments are subject to changes in the market NAV of units of Mutual Funds. The fair value of some of mutual funds as of March 31, 2026 was ₹ 235.03 lakhs [March 31, 2025 - ₹ 313.98 lakhs]. A 5percent standard deviation of 5% [FY 2024-25 - 5%] would result in change in NAV prices of units held as of March 31, 2026 by ₹ 11.75 lakhs [FY 2024-25 - ₹ 15.699 lakhs].

33 Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings and obligations under finance leases, less cash and cash equivalents. Adjusted equity comprises all components of equity.

Particulars	As at 31st March, 2026	As at 31st March, 2025
Total Interest bearing liabilities	108.11	55.93
Less: Cash and Cash equivalents	38.76	936.01
Adjusted Net Debt	70.35	(880.07)
Total Equity	3164.92	2808.64
Adjusted equity	3164.92	2808.64
Adjusted net debt to adjusted equity ratio	0.02	Nil

34 Non Current Asset Held for Sale

As per Ind AS - 105, An entity shall classify a non-current asset (or disposal group) as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. Further one of conditions to classify is that the sale should be complete within 12 months from classification. There are some exceptions to such condition and extension is provided beyond one year to complete the sale. During F.Y. 2022-23, the management has decided to sell the asset which was part of PPE earlier and classified the Building & Furniture located at 805, Hasrajaiwala Complex, Palik, Ahmedabad on 01.08.2022 having carrying value of ₹ 1.38 lacs. During the year, management has made efforts to actively market the property and there is no change in plan to sale the asset. As the property is vacant for long duration of time, the local taxes and other regulatory requirements are still under process. There is change in management during F.Y. 2022-23, therefore, management is actively trying to resolve the issue at earliest. Management is already in talks with one of the buyer regarding the sale and is expected to complete soon.
