SECTION II- RISK FACTORS

Investment in the Equity Shares involves a high degree of risk. You should carefully consider all of the information in this Letter of Offer, including the risks and uncertainties described below and the Financial Statements incorporated in this Letter of Offer, before making an investment in the Equity Shares of our Company. Any potential investor in, and subscribers of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment which in some material respects may be different from that which prevails in other countries. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the risks involved. If any or some combination of the following risks occur or if any of the risks that are currently not known or deemed to be not relevant or material now, actually occur, our business, prospects, financial condition and results of operations could suffer, the trading price of the Equity Shares could decline, and you may lose all or part of your investment. If our business, results of operations or financial condition suffer, the price of the Equity Shares and the value of your investments therein could decline.

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality therein:

- Some risks may not be material at present but may have a material impact in the near future.
- Some risks may not be material individually but may be found material when considered collectively
- Some risks may have material impact qualitatively and not quantitatively and vice-versa

We have described the risks and uncertainties that our management believes are material, but these risks and uncertainties may not be the only ones we face. Additional risks and uncertainties, including those we are not aware of, or deem immaterial or irrelevant, may also result in decreased revenues, increased expenses or other events that could result in a decline in the value of the Equity Shares and may also have an adverse effect on our business. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in the Equity Shares.

This Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Letter of Offer.

For further details, please refer to chapter titled “Forward-Looking Statements” beginning on page 14 of this Letter of Offer. Unless otherwise indicated, all financial information included herein are based on our Financial Statements. Please refer to the section titled “Audited Financial Statement” beginning on page 56 of this Letter of Offer.

Internal Risk Factors:

1. ***General economic and market conditions in India and globally could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.***

Our business is highly dependent on economic and market conditions in India. General economic and political conditions in India, such as macroeconomic and monetary policies, industry-specific trends, mergers and acquisitions activity, legislation and regulations relating to the financial and securities industries, household savings rate, investment in alternative financial instruments, upward and downward trends in the market, business and financial sectors, volatility in security prices, perceived lack of attractiveness of the Indian capital markets, inflation, consumer confidence, currency and interest rate fluctuations, availability of short-term and long-term market funding sources and cost of funding, could affect our business. Global economic and political conditions may also adversely affect the Indian economic conditions. Market conditions may change rapidly and the Indian capital markets have experienced significant volatility in the past.

Our merchant banking business is dependent upon the level of activity in the Indian capital markets, including the number and size of public offerings, fund raising activities, mergers and acquisitions, and other capital market transactions. Any slowdown or decline in such activities may adversely affect the demand for our services and, consequently, our revenues and profitability.

In addition, we are highly susceptible to downturns in general economic conditions and adverse market conditions as they could materially and adversely affect most aspects of our business. Such downturns affect our business, results of operations, financial condition, cash flows and prospects in various ways, including but not limited to the following:

- the volume of trading in securities that we offer in our brokerage business may be adversely affected by market movements and volatility, thereby reducing our brokerage revenues;
- the volume and number of fund raisings could significantly decline, thereby affecting our revenues from our merchant banking business;
- we may face higher risk of defaults by customers or counterparties on their contractual obligations;
- we may face increased competition in all our businesses, leading to lower fees and commissions and lower income;
- our financing costs may increase due to the limited access to liquidity and the capital markets, thereby restricting our ability to raise funding to develop our business; and
- we may not be able to effectively execute our business plans and strategies or achieve our anticipated growth.

Our revenues have also demonstrated that our financial performance may vary with prevailing market and economic conditions. Our total revenue was ₹306.65 lakhs in Fiscal 2024, ₹740.809 lakhs in Fiscal 2025 and ₹737.065 lakhs in Fiscal 2026. While our revenues increased substantially during Fiscal 2025 compared to Fiscal 2024, they remained broadly stable during Fiscal 2026. Such fluctuations demonstrate the potential impact of prevailing capital market activity and economic conditions on our business and financial performance. Any deterioration in general macroeconomic conditions, reduction in capital market activity, adverse market movements or decline in investor participation may adversely affect our future revenues, profitability, financial condition, cash flows and prospects. Accordingly, any adverse change in economic or market conditions in India or globally may have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

2. ***We are subject to extensive statutory and regulatory requirements and supervision, which have material influence on, and consequences for, our business operations and financial performance.***

Our business is subject to extensive statutory, regulatory and compliance requirements under applicable laws, rules, regulations, circulars, guidelines and directions issued by regulatory authorities, including the Securities and Exchange Board of India ("SEBI"), as applicable to our activities as a merchant banker and other financial services provider. These requirements govern various aspects of our business, including capital adequacy, net worth, underwriting obligations, due diligence, disclosure requirements, investor protection, corporate governance, conduct of business and compliance with applicable securities laws. We are also subject to periodic inspections, reviews and enquiries by regulatory authorities, including SEBI, and any adverse observations, findings or directions arising from such inspections or reviews could materially and adversely affect our business, reputation, financial condition and results of operations.

The regulatory framework applicable to our business is subject to periodic changes and may be revised from time to time. For instance, SEBI has revised certain regulatory requirements applicable to merchant bankers, including requirements relating to minimum net worth, liquid net worth and the aggregate underwriting obligations that may be undertaken by a merchant banker. Such changes may require us to maintain additional capital or liquidity and may increase our compliance and operational costs. We may also be required to modify our existing systems, processes, policies and business practices to comply with revised regulatory requirements. Any inability or delay in complying with such requirements may adversely affect our ability to undertake or continue certain activities and may have a material adverse effect on our business, financial condition and results of operations.

In the past, we have received administrative warnings in relation to non-compliance with certain provisions of the SEBI (Merchant Bankers) Regulations, 1992 and certain aspects of our due diligence processes in connection with

initial public offerings ("IPOs") and takeover code. Although we have taken steps to address such observations, there can be no assurance that we will not receive similar observations or face regulatory actions in the future. Any failure to comply with applicable statutory or regulatory requirements, or any adverse findings by SEBI or other regulatory authorities, may result in warnings, penalties, restrictions, suspension or other regulatory action, which could adversely affect our reputation, business operations, financial condition, cash flows and results of operations.

Further, the increasing scope and complexity of regulatory requirements may require us to incur additional expenditure towards compliance, personnel, technology, systems, controls and professional services. Any significant increase in the cost of compliance or changes in the regulatory framework may adversely affect our profitability and ability to compete effectively.

3. ***We are dependent on our Key Managerial Personnel, Principal Office and Compliance Officer (Key Personnel's) and our inability to attract, retain or replace qualified personnel, or changes in regulatory requirements relating to such personnel, could adversely affect our business, results of operations and financial condition.***

Our performance depends significantly on the efforts, expertise, experience and abilities of our Key Managerial Personnel ("KMPs"), Principal Officer and Compliance Officer (key personnel) who possess experience and knowledge of the financial services and securities market in which we operate. We believe that the knowledge, experience and inputs of our key personnel are important for the conduct and development of our business, compliance with applicable regulatory requirements and implementation of our business strategies.

There can be no assurance that any of our key personnel will continue to remain with us. Any loss of their services, whether due to resignation, retirement, termination or otherwise, or their joining a competitor, could adversely affect our business operations and ability to execute our business plans. We may also face difficulties in attracting and retaining suitably qualified and experienced personnel, particularly persons having the requisite experience in merchant banking, capital markets, regulatory compliance, risk management and related areas. Further, we may require a significant period of time to identify, recruit and train suitable replacements, and there can be no assurance that such replacements will be available in a timely manner or on terms acceptable to us.

Our requirements relating to personnel may also increase as a result of changes in the regulatory framework governing merchant bankers. In this regard, SEBI, pursuant to its circular dated January 02, 2026 specifying consequential requirements pursuant to the Securities and Exchange Board of India (Merchant Bankers) Amendment Regulations, 2025, has revised certain requirements relating to the Principal Officer and Compliance Officer. Under the revised framework, the Principal Officer is required to be an employee of the merchant banker having at least five years of experience in working in the financial markets and is responsible for decisions relating to the management or administration of merchant banking activities and other operations of the merchant banker. Existing merchant bankers are required to comply with this requirement on or before January 02, 2027. Further, the revised regulatory framework requires the Compliance Officer to be separate and independent from the Principal Officer and certain other employees. Existing merchant bankers were required to comply with this requirement within 90 days from the effective date of the revised framework, i.e. on or before April 03, 2026.

Accordingly, any further changes by SEBI or other regulatory authorities in relation to the qualifications, experience, designation, number, roles, responsibilities, independence or other eligibility requirements applicable to KMPs, Principal Officers, Compliance Officers or other personnel may require us to appoint additional personnel, restructure our existing management and compliance functions or replace existing personnel. Such requirements may increase our employee costs and other operating expenses and may require us to incur additional expenditure towards recruitment, training and compliance.

The availability of personnel having the requisite qualifications, experience and expertise may also be limited, and competition for such personnel may increase. We may therefore be required to offer higher compensation or other incentives to attract and retain suitable personnel. Any inability to comply with applicable regulatory requirements relating to our personnel, or any inability to attract, retain or replace suitably qualified personnel in a timely manner, could adversely affect our ability to undertake merchant banking activities, comply with regulatory requirements, execute our business plans and may have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

4. ***A downturn or disruption in the securities and capital markets, including a decline in the number or size of rights issues, initial public offerings and other capital raising activities, could adversely affect our business, financial condition, cash flows and profitability.***

Our revenues, level of operations and profitability are substantially dependent on the overall level of activity in the Indian securities and capital markets. Our merchant banking business derives revenues from providing services in connection with various capital market transactions, including initial public offerings ("IPOs"), rights issues, further public offerings, preferential issues, qualified institutions placements, open offers, mergers and acquisitions and other fund raising and advisory activities. Accordingly, any decline in the number, size or value of such transactions, could adversely affect our revenues and profitability.

In addition, the revenue recognition and cash flows associated with capital market assignments may be dependent upon the successful completion of the relevant transaction. Accordingly, delays in obtaining regulatory approvals, fulfilment of statutory or other conditions, changes in transaction structure, failure to achieve the required level of subscription, withdrawal or postponement of an issue, or other circumstances resulting in a transaction not being completed could result in us incurring costs without receiving the expected revenues or could defer the receipt of revenues to a subsequent period.

Our revenues may therefore fluctuate materially from period to period depending on the number, size and timing of capital market transactions undertaken by us. During sustained periods of reduced capital market activity, our revenues may decline, while a significant portion of our operating expenses, including employee costs, regulatory and compliance costs, technology costs, infrastructure costs and other administrative expenses, may continue to remain relatively fixed. If we are unable to reduce our expenses at a corresponding rate, our operating margins and profitability may be adversely affected.

Further, we may deploy a portion of our funds in equity market investments with the objective of generating returns on such funds. Such investments are subject to market risks and fluctuations in the prices and trading volumes of securities. A decline in equity prices, increased market volatility, reduced liquidity or adverse changes in investor sentiment may result in a decline in the value of our investments and may adversely affect our financial condition and operating results. There can be no assurance that the returns generated from such investments will meet our expectations or compensate for any decline in revenues from our core capital market activities.

Any sustained downturn, disruption or volatility in the Indian or global securities markets, including a reduction in the number or size of rights issues, IPOs and other capital raising transactions, may adversely affect our ability to obtain new mandates, the fees we are able to charge, the timing of our revenues and the utilisation of our personnel and resources. Consequently, any such adverse developments could have a material adverse effect on our business, financial condition, cash flows, results of operations, profitability and prospects.

5. ***We do not own our Registered Office which is being used by us currently.***

Our Registered Office premise which is situated at Office No. 508, Fifth Floor, Priviera, Nehru Nagar, Ahmedabad - 380 015 Gujarat is taken on leasehold basis from Purven Vyas through his POA Holder Bhadreshbhai Vyas for period commencing from October 01, 2025 for 11 months and 29 days at a monthly rent of 68,052/- (Rupees Sixty Eight Thousand Fifty Two only) per month and this lease can be extended further by both parties with their mutual consent on the basis of prevailing rental value in the market. There can be no assurance that the term of the agreements will be either continued or renewed for further period, and in such event the lessor/licensor terminates or does not renew the agreements, we may require to vacate the registered office premises and identify alternative premises and enter into fresh lease or leave and license agreement. Such a situation could result into time overruns and may adversely affect our operations, profitability and Brand image also.

6. ***Employee fraud, misconduct, cyber incidents or failures of our information technology systems could adversely affect our business, financial condition, results of operations and reputation.***

Our business is exposed to risks of employee fraud, misappropriation, misconduct, negligence, unauthorised transactions and misuse or disclosure of confidential information. Any such acts by our employees, agents or other persons associated with us may result in financial losses, regulatory action, legal proceedings, loss of client

confidence and reputational damage. Although we have implemented internal controls and monitoring mechanisms, including our Securities Disclosure Driven ("SDD") System, to monitor and prevent such activities, there can be no assurance that such measures will detect or prevent every instance of fraud or misconduct.

We also rely on information technology systems for recording, processing, storing and transmitting information and transactions and are therefore exposed to cybersecurity risks, including hacking, phishing, malware, ransomware, unauthorised access, data breaches, system manipulation and other cyber threats. Any such incident could compromise confidential or sensitive information, disrupt our operations and result in financial, regulatory and reputational consequences. We may also be exposed to cybersecurity risks arising from third-party service providers and technology vendors. SEBI has introduced the Cybersecurity and Cyber Resilience Framework ("CSCRF") for SEBI Regulated Entities pursuant to its circular dated August 20, 2024, requiring regulated entities to implement appropriate measures for cybersecurity, cyber resilience, prevention and detection of cyber incidents, incident response and recovery. The framework has also been supplemented by subsequent clarifications and amendments. Compliance with these requirements, as well as any future changes in the regulatory framework, may require us to incur additional expenditure towards technology, cybersecurity infrastructure, personnel, audits, monitoring and compliance.

Despite our internal controls and cybersecurity measures, there can be no assurance that we will be able to prevent or detect all instances of fraud, misconduct, cyberattacks, data breaches or system failures. Any such event may result in financial losses, regulatory penalties, litigation, compensation claims or business disruption. Even where we pursue legal remedies or make insurance claims, we may not be able to recover the losses incurred. Any such occurrence could adversely affect our reputation, client relationships, business prospects, financial condition, cash flows and results of operations.

7. ***Our expansion into additional activities permitted under the applicable SEBI regulations may not be successful and may adversely affect our business, financial condition and results of operations.***

As part of our business strategy, we may evaluate and undertake additional activities and services that are permitted to be undertaken by merchant bankers under the applicable laws, regulations and guidelines issued by SEBI and other regulatory authorities. Such activities would be within the existing regulatory framework applicable to us and would not necessarily constitute entry into entirely new or unrelated lines of business. However, we may have limited experience in certain such activities and there can be no assurance that we will be able to successfully establish, develop or scale these activities. The commencement or expansion of such permitted activities may require additional management attention, personnel, technology, systems, infrastructure, capital and compliance resources. We may also face competition from other merchant bankers and financial service providers with greater experience or established client relationships in such activities. Further, demand for such services may be affected by market conditions, regulatory changes, investor sentiment and other factors beyond our control.

Any failure to successfully implement or scale such activities, or any inability to generate the anticipated revenues from them, may result in additional costs without corresponding revenues and may adversely affect our profitability and financial performance. Further, changes in applicable SEBI regulations or other regulatory requirements may restrict, modify or impose additional conditions on our ability to undertake such activities.

Accordingly, there can be no assurance that our initiatives to undertake or expand activities permitted under the applicable merchant banking regulatory framework will achieve the expected results, and any failure in this regard could adversely affect our business, financial condition, cash flows, results of operations and prospects.

8. ***We face intense competition in the merchant banking and financial services industry, which may adversely affect our ability to obtain mandates, grow our business and maintain our profitability.***

We operate in a competitive market and face competition from other merchant bankers, investment banks, financial advisors, brokers and other financial services providers. We compete for mandates and clients based on factors such as experience, track record, quality and timeliness of execution, regulatory compliance, service offerings, client relationships, reputation and fees.

Our competitors may have advantages over us, including greater financial and other resources, larger or more established client relationships, longer operating history, stronger brand recognition, greater geographical presence, larger teams of experienced professionals and broader service offerings. Some competitors may also have greater ability to invest in technology, personnel and infrastructure and may be able to offer services at lower fees. Competition may also increase as the number of financial intermediaries and participants in the Indian capital markets grows. Increased competition may result in pressure on fees and margins, loss of existing or potential mandates, increased employee costs and higher expenditure on business development and technology.

Our ability to grow will depend, among other factors, on our ability to maintain existing client relationships, secure new mandates, retain experienced personnel and provide services in accordance with applicable regulatory requirements. There can be no assurance that we will be able to compete effectively with existing or future competitors or respond successfully to changes in competitive conditions. Any inability to compete effectively may result in a decline in our mandates, revenues, market position and profitability and may adversely affect our business, financial condition, cash flows, results of operations and prospects.

9. ***The Logo which is being used by us, is yet not registered with the Trade Marks and patents Authority***

We are currently using our logo as our brand name without having applied for its registration with the Trademark and Patent authorities. Operating in a highly competitive environment, particularly in the merchant banking sector where brand recognition and reputation are crucial, we have built a strong image and gained recognition among leading financial advisors. This reputation is a key element of our business strategy and overall success.

However, the absence of a registered trademark for our logo may limit our ability to enforce or protect our intellectual property rights under the Trademarks Act, 1999. Without such statutory protection, we face the risk of misuse or unauthorized use of our brand and designs by competitors, which could harm our reputation, business prospects, and goodwill. In the event of infringement, we may not be able to effectively prevent the misuse of our logo or seek legal remedies, which could potentially result in a loss of market position and competitive advantage.

10. ***Our ability to identify and secure new business opportunities and mandates is critical to our growth, and any inability to do so may adversely affect our business, financial condition and results of operations.***

Our growth and financial performance depend, in part, on our ability to identify, evaluate and secure new business opportunities and mandates in our merchant banking and other permitted activities. Our ability to source and execute new assignments is influenced by factors including market conditions, client requirements, investor sentiment, competition, regulatory developments and our ability to maintain and develop relationships with existing and prospective clients. As we seek to expand our business, we may need to strengthen our personnel, systems, processes and other resources to effectively identify, evaluate, execute and manage additional assignments. There can be no assurance that we will be able to attract and retain suitable personnel or develop and implement the required systems and processes in a timely and cost-effective manner.

Further, the strategies and methods used by us to source business opportunities may change depending on prevailing market conditions and our business requirements. Our assessment of market trends, client demand and other relevant factors may not always be accurate, and the strategies adopted by us may not yield the expected results. Inability to identify suitable opportunities, secure mandates or successfully execute assignments could result in underutilisation of our resources and adversely affect our revenues, profitability, financial condition, cash flows and prospects.

11. ***Our ability to utilise the proceeds of the Issue to meet the revised regulatory requirements applicable to Category-I Merchant Bankers and enhance our underwriting capacity is subject to our ability to raise the proposed funds and the proceeds qualifying as net worth and liquid net worth under the applicable regulatory framework.***

The Company proposes to utilise the proceeds of the Issue primarily towards strengthening and augmenting its net worth and capital base to comply with the revised capital adequacy and liquid net worth requirements applicable to Category-I Merchant Bankers. The Company also intends to strengthen its underwriting capacity through enhancement of its qualifying liquid net worth. However, there can be no assurance that the Company will raise the

proposed Issue proceeds in the amount contemplated or that the entire Issue proceeds will qualify for inclusion in net worth or liquid net worth for regulatory purposes.

Further, the Company's ability to continue as a Category-I Merchant Banker and undertake activities permissible to a Category-I Merchant Banker is subject to its continued compliance with the applicable regulatory requirements prescribed by SEBI, including requirements relating to net worth, income generation, liquid net worth and underwriting obligations. Any change in the manner of computation or eligibility of amounts forming part of net worth or liquid net worth, or any increase in the applicable regulatory requirements, may result in the Company requiring additional capital or liquidity beyond the proceeds of the Issue.

The Company expects that an increase in qualifying liquid net worth will enhance the aggregate underwriting capacity available to it under Regulation 22B(2) of the SEBI (Merchant Bankers) Regulations, 1992, which limits the total underwriting obligations of a Merchant Banker to twenty times its liquid net worth. However, the actual underwriting capacity will depend on the liquid net worth qualifying under the applicable regulations and the Company's aggregate underwriting obligations at the relevant time. Accordingly, the proposed Issue proceeds may not necessarily result in underwriting capacity of twenty times the amount raised or enable the Company to undertake underwriting obligations of any particular amount.

Further, the ability of the Company to undertake larger or multiple Main Board IPO mandates will depend on various factors, including availability of suitable mandates, market conditions, regulatory approvals, internal risk assessment, client requirements and the Company's ability to comply with applicable underwriting and other regulatory requirements. There can be no assurance that the enhanced regulatory headroom will result in an increase in the number or size of mandates secured by the Company or in a corresponding increase in revenues or profitability.

If the Company is unable to raise sufficient funds through the Issue, if the proceeds do not qualify as anticipated for regulatory capital or liquid net worth, or if the Company is unable to maintain the prescribed requirements on an ongoing basis, it may be required to raise additional funds or take other measures to comply with the applicable regulations. In case of non-compliance, the Company may be required to operate under a lower category of Merchant Banker or may be restricted from undertaking certain activities, as applicable under the regulatory framework. Any such circumstances could adversely affect the Company's business, financial condition, cash flows, results of operations and prospects.

12. ***Our ability to maintain and strengthen our brand recognition and reputation is important to our ability to attract and retain clients, and any failure to do so may adversely affect our business, financial condition and results of operations.***

Our business depends, in part, on our ability to establish, maintain and strengthen our reputation and brand recognition in the merchant banking and financial services industry. Our reputation, track record, quality of services, regulatory compliance and relationships with clients and other market participants influence our ability to attract new clients, retain existing clients and secure mandates.

We may incur expenditure towards business development, client engagement, marketing and other activities aimed at maintaining and enhancing our brand and market presence. However, there can be no assurance that such efforts will result in increased business opportunities or mandates or that the related expenditure will generate the expected returns.

Our reputation may also be adversely affected by factors beyond our control, including adverse market conditions, regulatory actions or observations, delays or failures in execution of assignments, disputes with clients, employee misconduct, cybersecurity incidents or negative publicity relating to us or transactions undertaken by us. Any damage to our reputation or inability to maintain adequate brand recognition may adversely affect our ability to attract and retain clients and employees and secure new mandates, which could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

13. ***Our computer systems and network infrastructure may be vulnerable to cybersecurity incidents, data breaches, ransomware attacks, fraud and other disruptions, which could adversely affect our business, financial condition, results of operations and reputation.***

We seek to protect all the computer systems and network infrastructure in our offices from physical break-ins as well as security breaches and other disruptive problems. Our systems are potentially vulnerable to data security breaches, whether by our employees, or our service providers or others that may expose sensitive data to unauthorized persons. Computer break-ins and power disruptions could affect the security of information stored in and transmitted through these computer systems and networks.

Also, there was an instance where our servers were under ransom attack and due to which our data got lost and got corrupted. To address these issues and to minimise the risk of security breaches we employ security systems, including firewalls and intrusion detection systems, conduct periodic testing for identification and assessment of potential vulnerabilities. However, these systems may not guarantee prevention of frauds, break-ins, damage and failure. A significant failure in security measures could have an adverse effect on our business. Data security breaches could lead to the loss of intellectual property or could lead to the public exposure of personal information (including sensitive financial and personal information) of our clients, investors or our employees. Any such security breaches or compromises of technology systems could result in institution of legal proceedings against us and potential imposition of penalties, which may have an adverse effect on our business and reputation.

14. ***Our merchant banking activities expose us to risks associated with due diligence and transaction execution, and any failure in our due diligence or advisory responsibilities could result in regulatory action, claims and reputational damage.***

As a merchant banker, we are required to undertake due diligence and comply with applicable laws, regulations and regulatory requirements in connection with the assignments undertaken by us. While we have established internal processes and controls for conducting due diligence and executing transactions, there can be no assurance that such processes will identify or prevent all errors, omissions or material issues. We may also be dependent on information, documents and representations provided by our clients and other parties, which may be incomplete, inaccurate, misleading or delayed. Any failure to identify material issues, inadequacies in disclosures or non-compliance during the due diligence or transaction execution process may expose us to regulatory scrutiny, penalties, claims, litigation suspension and financial losses. Further, any such failure or adverse development may adversely affect our reputation and credibility in the market, result in loss of existing or potential mandates and materially and adversely affect our business, financial condition and results of operations.

15. ***Our revenues from merchant banking assignments may be affected by the successful completion of transactions and our ability to maintain relationships with issuers, investors and other capital market participants.***

Our ability to generate revenues from merchant banking assignments depends, to a significant extent, on the successful completion of the transactions for which we are appointed. A substantial portion of our merchant banking revenues may arise from assignments where fees are linked to the progress or successful completion of the relevant transaction. However, transactions may be delayed, postponed, withdrawn or cancelled due to market conditions, regulatory requirements, insufficient investor interest, changes in the financial position of the issuer or other circumstances beyond our control. In such cases, we may incur personnel, professional and other transaction-related expenses without receiving the expected fees, or may receive lower or delayed revenues, which could adversely affect our financial performance.

Further, our ability to obtain and execute merchant banking mandates depends significantly on our relationships with existing and prospective clients, investors, intermediaries, professional advisors and other participants in the capital markets. Any deterioration in these relationships, loss of key clients or inability to establish and maintain new relationships may adversely affect our ability to secure new mandates and generate revenues. There can be no assurance that our existing relationships will continue or that we will be able to establish new relationships on commercially acceptable terms. Any such developments could adversely affect our business, financial condition, results of operations and prospects.

16. Our Company may have potential conflicts of interest with our Group Company) as it has been authorized and engaged in similar line of business.

Our Managing Director, Mr. Pradeep Sandhir, also serves as a Director at Beeline Broking Limited, a broking firm and Category I Merchant Banker. While Beeline Broking Limited is currently focused on broking activities and is not engaged in any merchant banking assignments, it is possible that our group company may undertake operations similar to ours in the future. For more information, refer to the Chapter titled "Our Management" on page 53 of this Letter of Offer.

Our company has not entered into any non-compete agreements with the group company, and as a result, there is no assurance that conflicts of interest will not arise when allocating business opportunities and strategies between our company and our group company, especially when our interests diverge. In such cases, our Director may prioritize the interests of other company in which he hold a stake. Any such conflict of interest may adversely affect our business, financial condition and results of operations of our Company.

17. *We have not entered into any long-term contracts with any of our customers and typically operate on the basis of work orders, which could adversely impact our revenue and profitability.*

We do not have long-term contracts with our customers, and our services are provided on an assignment-to-assignment basis, such as for IPOs, Bonus Issues, Rights Issues, Preferential Issues, Demergers, Mergers, Buybacks, and De-listings. While mandates may be signed for specific assignments, customers retain the right to terminate the relationship with notice, based on mutually agreed terms. This could materially and adversely affect our business. Although we maintain strong business relationships and have historically received repeat business from our clients, there is no guarantee that this will continue, which may impact our future profitability.

18. We have entered into related party transactions in the past and may continue to do so in the future.

We have entered into certain transactions with related parties which are in compliance with Company Law and other applicable laws with our Directors and KMPs. While we believe that all such transactions are conducted on arm's length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions were not entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in future. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please see **"***Related Party Disclosure*" under the chapter "*Audited Financial Statement"* beginning on page 56 of this Letter of Offer.

19. *Our financing requirements and the deployment of the net proceeds of the Issue are based on management estimates and have not been independently appraised.*

Our financing requirements and the deployment of the net proceeds of the Issue are based on management estimates and have not been appraised by any bank or financial institution. In view of the highly competitive nature of the industry in which we operate as well as in consultation with the SEBI Consultation Paper on Review of Securities and Exchange Board of India (Merchant Bankers) Regulations, 1992 dated August 28, 2024, we may have to revise our management estimates from time to time and consequently our financing requirements and the expected deployment of the net proceeds of the Issue may also change.

20. We do not have Insurance Policy in our Company.

Our company currently does not maintain any insurance policies to cover operational, financial, or legal risks. This lack of insurance may expose the company to significant financial losses in the event of unforeseen circumstances, including but not limited to, natural disasters, theft, cybersecurity incidents, legal liabilities, or operational disruptions.

Without adequate insurance, we may be required to cover these losses from our internal resources, which could adversely impact our financial health and operational capabilities. Additionally, the absence of coverage for potential legal liabilities may result in increased exposure to litigation risks, potentially leading to severe financial

consequences. As a result, our inability to mitigate these risks through insurance could negatively affect the company's reputation, financial stability, and business continuity.

21. ***Negative publicity could adversely affect our revenue model and profitability.***

We work in the market where trust of the customers on us and upon the services provided by us matters a lot. Any negative publicity regarding our company or the services rendered by the company due to any other unforeseen events may affect our reputation and image which leads to the adverse effect on our business and goodwill as well.

ISSUE SPECIFIC RISKS

1. ***Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.***

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncee(s) may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncee(s) prior to the Issue Closing Date. Further, in case the Rights Entitlements do not get credited in time, or in case of On Market Renunciation, such Renouncee will not be able to apply in the Issue with respect to such Rights Entitlements.

2. ***We cannot guarantee that the Equity Shares issued under this Issue will be listed on the Stock Exchanges in a timely manner, if at all.***

In accordance with Indian law and practice, after our Board or committee passes the resolution to allot the Equity Shares but prior to crediting such Equity Shares into the Depository Participant accounts of the investors, we are required to apply to the Stock Exchanges for final approval for listing and trading of the Equity Shares. There could be a failure or delay in obtaining these approvals from the Stock Exchanges, which in turn could delay the listing of the Equity Shares on the Stock Exchanges. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period. Any failure or delay in obtaining these approvals would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, may not be indicative of the prices at which the Equity Shares will trade in the future.

3. ***Investors may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.***

Under current Indian tax laws and regulations, capital gains arising from the sale of shares in an Indian Company are generally taxable in India. Previously, any gain realised on the sale of listed equity shares on or before March 31, 2018 on a stock exchange held for more than 12 months was not subject to long-term capital gains tax in India if securities transaction tax ("STT") was paid on the sale transaction. However, the Finance Act, 2018, now seeks to tax on such long-term capital gains exceeding ₹ 100,000 arising from sale of equity shares on or after April 1, 2018, while continuing to exempt the unrealised capital gains earned up to January 31, 2018 on such Equity Shares. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which our Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of our Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of our Equity Shares Rights Entitlements.

Further, the Finance Act, 2019, which has been notified with effect from April 1, 2019, stipulates the sale, transfer and issue of securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act has also clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount.

These amendments have been notified on December 10, 2019; however, these amendments will come into effect from July 1, 2020. The Finance Act, 2020 has also provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic Company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident.

4. ***Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.***

Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation, cash flows or financial condition, or other events affecting the Applicant's decision to invest in the Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

5. ***Our Company will not distribute the Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.***

Our Company will dispatch the Letter of Offer, the Rights Entitlement Letter, and the Application Form (the "Issue Materials") to such Shareholders who have provided an address in India for the service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions.

However, the Companies Act, 2013 requires companies to serve documents at any address which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act, 2013 and the rules made thereunder with respect to distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act, 2013 and may subject us to fines or penalties.

6. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and the Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you

receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date.

Further, in case the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see "Terms of the Issue" on page 67 of this Letter of Offer.

7. ***Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such a conversion may reduce the net dividend for foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares,
independent of our operating results.

8. ***You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.***

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

EXTERNAL RISK FACTORS

1. ***Adverse geopolitical developments, including regional conflicts, tensions between India and neighbouring countries, the Russia-Ukraine conflict, conflicts in West Asia and global trade restrictions and tariffs, could adversely affect the Indian capital markets and our business, financial condition and results of operations.***

Our business and financial performance are influenced by prevailing economic and capital market conditions in India, which may be adversely affected by geopolitical tensions, armed conflicts, trade restrictions, sanctions, tariffs and other international developments. Escalation of tensions between India and its neighbouring countries, the Russia-Ukraine conflict, conflicts involving Iran, Israel and other countries in West Asia, and increasing trade restrictions, tariffs or trade disputes among major economies may result in increased uncertainty and volatility in global and Indian financial markets.

Such developments may adversely affect investor sentiment, foreign portfolio investment, liquidity, security prices, exchange rates, interest rates, inflation and overall economic activity in India. Increased market volatility or a decline in investor confidence may reduce the volume and value of capital market transactions, including IPOs, rights issues and other fund-raising activities, thereby reducing opportunities for us to secure and execute merchant banking mandates. Geopolitical developments may also result in disruptions to global supply chains, increased commodity and energy prices, higher financing costs and slower economic growth, which may adversely affect the financial position and fund-raising requirements of our existing and prospective clients. This may result in postponement, restructuring or cancellation of capital market transactions and adversely affect our revenues.

As a merchant banker, our revenues are substantially dependent on the level of activity in the securities and capital markets and the successful completion of transactions for which we are appointed. Accordingly, any prolonged

geopolitical uncertainty, escalation of conflicts, imposition of tariffs or other trade restrictions, or deterioration in global or domestic market conditions could adversely affect our ability to secure mandates, complete transactions and generate revenues. The extent and duration of the impact of geopolitical events are difficult to predict and may depend on factors beyond our control. Any significant deterioration in global or Indian economic and capital market conditions arising from such events could adversely affect our business, financial condition, cash flows, results of operations and prospects.

2. ***Political, economic and other factors beyond our control may adversely affect the Indian capital markets and our business, financial condition and results of operations.***

Our business is significantly dependent on the overall economic and capital market conditions in India. Changes in government policies, political stability, fiscal and monetary policies, taxation, interest rates, inflation, foreign investment policies, regulatory framework and other economic or political developments may adversely affect investor sentiment and activity in the Indian securities markets. As a merchant banker and provider of capital market-related services, any slowdown in economic activity, decline in investor participation, reduction in market liquidity or adverse movement in securities prices may result in a decline in IPOs, rights issues and other fund-raising and capital market transactions. This may reduce the number of mandates available to us and adversely affect our revenues and profitability.

Our business may also be affected by factors beyond our control, including natural disasters, pandemics, civil disturbances, changes in global economic conditions, currency fluctuations, changes in commodity prices and other unforeseen events. Such events may result in market volatility, disruption of business activities and delays or cancellation of capital market transactions. Further, changes in applicable laws and regulations or increased regulatory requirements may require us to modify our systems, processes and business practices or incur additional compliance costs. Any adverse developments or uncertainty arising from political, economic, regulatory or other external factors could adversely affect our business, financial condition, cash flows, results of operations and prospects.

3. ***Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.***

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

4. ***Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.***

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

5. ***Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.***

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

6. ***Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.***

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

7. ***The ability of Indian companies to raise foreign capital may be constrained by Indian law.***

As an Indian company, our ability to raise funds from sources outside India is subject to applicable laws, rules, regulations, guidelines and regulatory frameworks governing foreign exchange and cross-border borrowings, including the provisions of the Foreign Exchange Management Act, 1999 ("FEMA") and the rules and regulations made thereunder. Such regulatory requirements may impose restrictions on the manner, quantum, currency, tenure, end-use and terms on which we may raise foreign currency borrowings or other forms of foreign capital. These restrictions may limit our access to certain sources of financing and may affect our ability to finance our projects under development, meet our funding requirements or refinance our existing indebtedness on competitive terms.

Further, any changes in the applicable regulatory framework, including changes in eligibility criteria, pricing guidelines, permitted end-uses, reporting requirements, limits on foreign borrowings or other conditions, may adversely affect our ability to access foreign capital. The process of obtaining requisite approvals, registrations, permissions or consents from the relevant regulatory authorities may also involve additional time, costs and compliance requirements. There can be no assurance that such approvals or permissions will be granted to us in a timely manner, on commercially favourable terms or at all.

In addition, fluctuations in foreign exchange rates and changes in interest rates, where applicable, may increase the cost of servicing foreign currency-denominated borrowings and expose us to additional financial risks. Any inability or delay in accessing foreign capital, or any increase in the cost of such financing, may adversely affect our ability to fund our business requirements and growth plans and may have a material adverse effect on our business, cash flows, results of operations and financial condition.

8. ***Malpractices by certain players in the merchant banking industry may adversely affect the reputation of the industry and our ability to conduct business.***

The merchant banking and capital markets industry is subject to regulatory, operational and reputational risks arising from the actions or alleged malpractices of other market participants, including merchant bankers, intermediaries, issuers, brokers, investment advisers and other service providers. Any instances of fraudulent activities, misrepresentation, non-compliance with applicable laws and regulations, inadequate disclosures, conflicts of interest or other malpractices by certain players in the industry may adversely affect the confidence of investors, regulators and other stakeholders in the merchant banking and capital markets ecosystem as a whole.

Such incidents, even where they do not involve us or arise from our activities, may result in increased regulatory scrutiny, enhanced compliance requirements and changes in applicable regulations or industry practices. This may increase the cost and complexity of undertaking merchant banking assignments and may adversely affect the

willingness of issuers and investors to access the capital markets. Further, any adverse perception or loss of confidence in the industry may make it more difficult for us to secure new mandates or maintain relationships with existing and prospective clients.

Although we maintain internal processes and controls and endeavour to comply with applicable regulatory requirements, we cannot assure you that the actions of other industry participants will not adversely affect our business, reputation, financial condition, results of operations and prospects.

DETAILS OF THE OBJECTS OF THE ISSUE

1. Increase Net-worth of the Company

The Company is a SEBI registered Merchant Banker and is presently registered as a Category-I Merchant Banker. The regulatory framework governing Merchant Bankers has undergone significant changes pursuant to the Securities and Exchange Board of India (Merchant Bankers) Amendment Regulations, 2025, notified on December 05, 2025, which came into effect from January 03, 2026 ("Effective Date").

The amendments, inter alia, provide for revised capital adequacy and liquid net worth requirements for Merchant Bankers and prescribe a phased implementation framework for existing Merchant Bankers to comply with such requirements and to continue as Category-I or Category-II Merchant Bankers.

As specified by SEBI vide its Circular bearing reference no. HO/49/11/11(106)2025-CFD-RAC-DIL3/I/1796/2026 dated January 02, 2026, existing Merchant Bankers are required to comply with the revised capital adequacy and liquid net worth requirements in a phased manner. For a Category-I Merchant Banker, the requirements are as follows:

Table (I): Phased implementation of capital adequacy and liquid net worth requirements

Category	Phase (I) - on or before January 02, 2027		Phase (II) - on or before January 02, 2028	
	capital adequacy being net worth	liquid net worth requirement	capital adequacy being net worth	liquid net worth requirement
Category I	Rs. 25 cr	Rs. 6.25 cr	Rs.50 cr	Rs.12.5 cr
Category II	Rs. 7.5 cr	Rs. 1.875 cr	Rs.10 cr	Rs.2.5 cr

Accordingly, a Category-I Merchant Banker is required to maintain a net worth of not less than Rs. 50 crore and liquid net worth of not less than Rs. 12.50 crore by January 02, 2028, in order to continue to operate as a Category-I Merchant Banker. An existing Merchant Banker which does not comply with the prescribed requirements for Category-I by the relevant phase would be automatically designated as a Category-II Merchant Banker. Further, an existing Merchant Banker which fails to comply with the requirements applicable to Category-II within the prescribed timelines would not be permitted to undertake any activity specified under Regulation 13A(1) of the SEBI (Merchant Bankers) Regulations, 1992.

As on the date of this Letter of Offer September 14, 2026, the net worth of the Company is Rs. 32.80 crores (Certified by B T Vora & Co., Chartered Accountants, dated September 14, 2026, UDIN:26180506YXLNOK7470). Although the Company's existing net worth is above the Phase I requirement of Rs. 25 crores applicable to a Category-I Merchant Banker, the Company is required to further augment its net worth to meet the revised requirement of Rs. 50 crores by January 02, 2028 and maintain the prescribed liquid net worth of Rs. 12.50 crore by the same date.

In view of the above regulatory requirements, the Company proposes to raise funds of Rs. 58.90 crores through the proposed Rights Issue. The proceeds of the Issue are proposed to be utilised primarily towards strengthening and augmenting the net worth and capital base of the Company. To the extent the proceeds qualify for inclusion in liquid net worth in accordance with the applicable regulatory framework, the same will also strengthen the Company's liquid net worth position. The proposed augmentation of capital will provide the Company with an adequate capital cushion to comply with the revised regulatory requirements applicable to Category-I Merchant Bankers and enable the Company to continue undertaking all activities permissible to a Category-I Merchant Banker, including acting as a Lead Manager to Main Board Issues, subject to applicable laws, regulations and approvals.

The proposed Rights Issue will also provide the Company with financial flexibility to maintain the requisite regulatory capital and liquid resources on an ongoing basis. This is particularly relevant considering that the Company is required to maintain the prescribed net worth and liquid net worth at all times and is also required to submit periodic certification from a Chartered Accountant confirming compliance with such requirements.

Accordingly, the proposed Issue is intended to ensure that the Company is adequately capitalised not only to meet the immediate and phased regulatory requirements but also to maintain an appropriate capital cushion beyond the minimum prescribed thresholds.

Enhancement of Underwriting Capacity

In addition to meeting the revised regulatory capital requirements, the proposed enhancement in the Company's net worth and liquid net worth is expected to strengthen its capacity to undertake underwriting obligations in connection with public issues and support the expansion of its merchant banking activities.

As specified by SEBI vide its Circular bearing reference no. HO/49/11/11(106)2025-CFD-RAC-DIL3/I/1796/2026 dated January 02, 2026:

Point No. 4: Conditions for compliance in respect of underwriting obligations

2.1 In terms of newly inserted sub-regulation (2) of Regulation 22B of MB Regulations, total underwriting obligations of MB shall not exceed 20 times of its liquid net worth. For existing MBs, Board has been empowered to specify the time and manner of compliance. Accordingly, it is specified that existing MBs shall comply with this requirement within two years from the effective date, i.e., by January 02, 2028.

2.2 The MB is also mandated to submit a certificate issued by Chartered Accountant providing the value of total underwriting obligations of the MB, as a part of Half Yearly Report. The certificate should also certify compliance with the subregulation (2) of regulation 22B by the MB.

The aforesaid regulatory framework establishes a direct relationship between the liquid net worth of a Merchant Banker and the aggregate underwriting obligations that it may undertake. Accordingly, an increase in the Company's qualifying liquid net worth is expected to enhance the permissible underwriting capacity available to the Company,

subject to the applicable regulatory requirements, the prescribed limits and the actual computation of liquid net worth.

For illustration, a liquid net worth of Rs. 12.50 crore, if fully qualifying for the purposes of Regulation 22B(2), would correspond to an aggregate permissible underwriting obligation of up to Rs. 250 crore, subject to the applicable regulatory conditions and the actual computation of liquid net worth. Any further increase in qualifying liquid net worth would correspondingly provide additional underwriting capacity within the prescribed twenty-times limit.

The enhanced underwriting capacity is particularly relevant to the Company's existing Main Board merchant banking business. The Company is presently undertaking and pursuing mandates in relation to Main Board Initial Public Offers, including assignments having proposed issue sizes generally in the range of approximately Rs. 100 crores to Rs. 200 crores. As the Company continues to undertake Main Board assignments, the size of the issues and the corresponding underwriting obligations may increase. The Company's ability to accept and execute such mandates is, therefore, also influenced by its available liquid net worth and the corresponding regulatory limit on its aggregate underwriting obligations. This would provide the Company with greater flexibility to accept multiple Main Board and other public issue mandates without the Company's underwriting capacity being constrained solely by its existing level of liquid net worth.

For example, where the Company is required to undertake underwriting obligations in relation to a Main Board IPO, an increase in its qualifying liquid net worth would increase the overall regulatory headroom available for such underwriting obligations. Consequently, the proposed capital infusion may enable the Company to participate in larger issue mandates and, subject to the applicable regulations and its internal risk assessment, undertake underwriting commitments across multiple assignments simultaneously.

The proposed Rights Issue will therefore not only assist the Company in complying with the revised capital adequacy and liquid net worth requirements applicable to a Category-I Merchant Banker, but is also intended to strengthen the Company's financial capacity to support the growth of its Main Board merchant banking business. The enhanced capital and liquidity position is expected to provide the Company with greater flexibility to pursue larger-sized IPO mandates, increase the scale of its underwriting commitments and undertake multiple public issue assignments concurrently.

Accordingly, the proposed increase in net worth and liquid net worth is expected to provide the Company with a stronger financial base to support its existing Main Board assignments and to pursue larger public issue mandates in the future, while ensuring that its aggregate underwriting obligations remain within the limits prescribed under Regulation 22B(2) of the SEBI (Merchant Bankers) Regulations, 1992.

Strengthening of Regulatory and Operational Preparedness

The proposed Rights Issue is therefore being undertaken with the primary objective of strengthening the Company's net worth and financial resources and ensuring its continued compliance with the revised regulatory framework applicable to Category-I Merchant Bankers. The proposed capital infusion will enable the Company to meet and maintain the revised capital adequacy requirements and, to the extent qualifying under the applicable regulations, strengthen its liquid net worth.

More importantly, the proposed increase in net worth and liquid net worth is expected to enhance the Company's underwriting capacity within the regulatory framework. Since the aggregate underwriting obligations of a Merchant Banker are capped at twenty times its liquid net worth under Regulation 22B(2), strengthening the Company's liquid net worth will provide additional headroom for undertaking underwriting obligations.

The enhanced financial capacity is expected to support the Company's ability to undertake multiple public issue mandates concurrently and pursue larger-sized IPO mandates, including Main Board Issues, subject to applicable regulations, underwriting limits, internal risk assessment and other applicable approvals. The proposed Rights Issue will therefore strengthen the Company's regulatory capital position, enhance its underwriting capacity, provide greater financial flexibility and support the Company's ability to undertake larger and multiple merchant banking assignments while maintaining compliance with the applicable regulatory framework.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment ("**FDI**") and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) ("**DPIIT**"), Ministry of Finance, Department of Economic Affairs through the FDI Policy (defined below).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("FDI") through press notes and press releases. The DIPP, has issued consolidated FDI Policy Circular of 2020 ("FDI Policy 2020"), effective from October 15, 2020, which consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2020 will be valid until the DIPP issues an updated circular. Further, the sectoral cap applicable to the sector in which our Company operates is 100% which is permitted under the automatic route.

The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI The FDI Policy, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the Reserve Bank of India or the Government of India, provided that the investment falls under the automatic route and all sectoral, pricing, reporting and securities-law conditions are met, including that (i) the activities of the investee company fall under the automatic route as provided in the FDI Policy and the FEMA NDI Rules, and the transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI. Further, any subsequent transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in beneficial ownership falling within the aforesaid thresholds, shall also require prior Government approval. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India.
